Date .18-5-2001

:TO WHOM SO EVER IT MAY CONCERN:

This is to certify that we have used KITEC COMPOSITE Pipes for compressed Air Supply lines in our dept. to supply compressed air to Dental chairs. It is more than one year since the installation and we have not incurred even a single problem.

We would like to state that we are extremely happy with the ease and speed of installation plus the trouble free working of Kitec pipes.

Thanking you,

Site Engineer(Civil)
J. N. Medical College
