Chennai.

Dear Sir,

Sub: Performance Certificate of KiTEC Composite pipe.

KiTEC Composite Pipes and Fittings provided by you for the Air-Conditioning with 9 mm thick Superior Insulation Sleeve for Chill Water Circulation are found to be highly satisfactory. The Installation and laying of these pipes are very easy and fast and need very less no. of fittings and it is easy to do the job in narrow space also.

KiTEC composite pipes are recommended for plumbing lines and especially for Solar water heater lines.

Thanking you,

for PRG CONSULTANTS,

**G.A. PACKIANATHAN**
