**TO WHOM IT MAY CONCERN**

We have been using KiTEC Composite pipe in our factory in Usha Martin Wire & Wire Rope Division for transporting water at a temp, of 60 degree C (Max) for last one year. Laying and fixing of this pipe is very easy. As this pipe is flexible and also available in 100 metres (max) length in coil form, long lengths can be laid without giving any joint. Plus the joints are specially designed with compression type fitting so no leakage takes place whatsoever.

A handwritten signature in black ink, appearing to read 'Bidyut Sen Gupta'.
