Dt. 17-04-97

I first saw and was greatly impressed by KITEC pipes, when I visited an exhibition of building materials, I had them installed in my new Hospital, off Trade; Centre Kolhapur and I can gladly state that my personal experience with them has been outstanding.

The ease and speed with which they could be installed were amazing. For KITEC, the cumbersome threading, bending and unwieldly handling do not exist. Nor for that matter the odd sized stubs, sawn off, which, as they invariably go waste, are messy and costly to work with.

I feel no hesitation in recommending them to all those who are Quality conscious, want to reduce valuable construction time and gain long term benefits,

Dr. Gurudas R Harshe.
